

Cabin Registration Checklist

Before building a cabin, have you...

- Chosen a location 500m away from other cabins, OR received permission from neighbors?
- Made sure the location is on Tłıchǵ Government lands?
- Checked you are 100m from the centerline of any HWY?
- Made sure you are at least 30m from any body of water to prevent contamination?
- Completed a Cabin Registration Form and dropped it off to Lands Department, to receive your free 99-year cabin land lease?

... if so, you are good to go!
