ONLINE PROGRAM

PROJECT MANAGEMENT

PROFESSIONAL DEVELOPMENT CERTIFICATE

In an effort to provide Tłıchǫ Government employees with more opportunities to advance professionally, HR has teamed with MacEwan University to provide distance education.

Project Management

Every project has its own obstacles, but you need the same skills to manage them: organizing and motivating the correct team, delegating duties, time and budget management, and strategic planning. MacEwan University, an Accredited Training Partner (ATP) of the Project Management Institute (PMI), offers a flexible project management series. Our PMP-certified instructors teach PMI's PMBOK Guide-aligned content. This certificate is intended any industry's project team members, sponsors, managers, leaders, PMO managers and employees, and PMI Project Management Professional (PMP) candidates. pmi.org has PMI certification criteria.

Learning & Career Growth

These courses will help you gain the following skills:

- Create realistic budgets and project schedules
- Find new ways to manage risk, stakeholder expectations and relationships
- Better define your projects, tasks and expectations upfront to avoid unexpected workloads
- Discover ways to shift your work focus and adapt to changes while considering time and budget
